

PLATFORM
FREIGHT

MISSION CRITICAL FREIGHT

DELIVERED WITH PRECISION

WHEN FREIGHT FAILS, **OPERATIONS SUFFER**

When freight is late, the impact moves fast.

It can lead to:

- Production downtime
- Missed project milestones
- Jobsite disruptions
- Lost revenue
- Customer dissatisfaction
- Expensive recovery efforts

For companies operating on tight schedules, freight performance directly impacts business performance.

That's why mission-critical freight requires more than a load board and a tracking link.

It requires a logistics partner who takes ownership.

MEET PLATFORM FREIGHT

Platform Freight was built to support companies that cannot afford uncertainty in their supply chain.

We act as an extension of your team, coordinating carriers, suppliers, warehouses, jobsites, and receivers to ensure freight arrives where it needs to be, when it needs to be there.

Customers rely on Platform Freight for:

Fast Responses

Reliable Capacity

Real-time
Communication

A Logistics Partner
That Stays Engaged

*When priorities change,
we adapt quickly and keep
freight moving.*

WHAT MAKES PLATFORM DIFFERENT?

Dedicated Point of Contact

Work with someone who understands your operation and stays accountable throughout the shipment.

Proactive Communication

You should never have to chase updates.

Problem Resolution

We identify issues early and address them before they become disruptions.

OUR **APPROACH**

Most freight brokers stop at booking the load.

Platform stays engaged until the freight is delivered.

Operational Ownership

We coordinate the details between pickup, transit, delivery, and receiving.

Flexible Execution

We adapt quickly when priorities shift to keep your freight moving without disruption.

Mission-Critical Mindset

Every shipment matters because every shipment impacts someone's operation.

OUR CAPABILITIES

Every shipment is backed by a network of trusted carrier partners and experienced logistics professionals.

Carrier Management

Carrier Sourcing

We quickly identify the right carrier for your shipment using a trusted network of qualified transportation partners across North America.

Insurance Validation

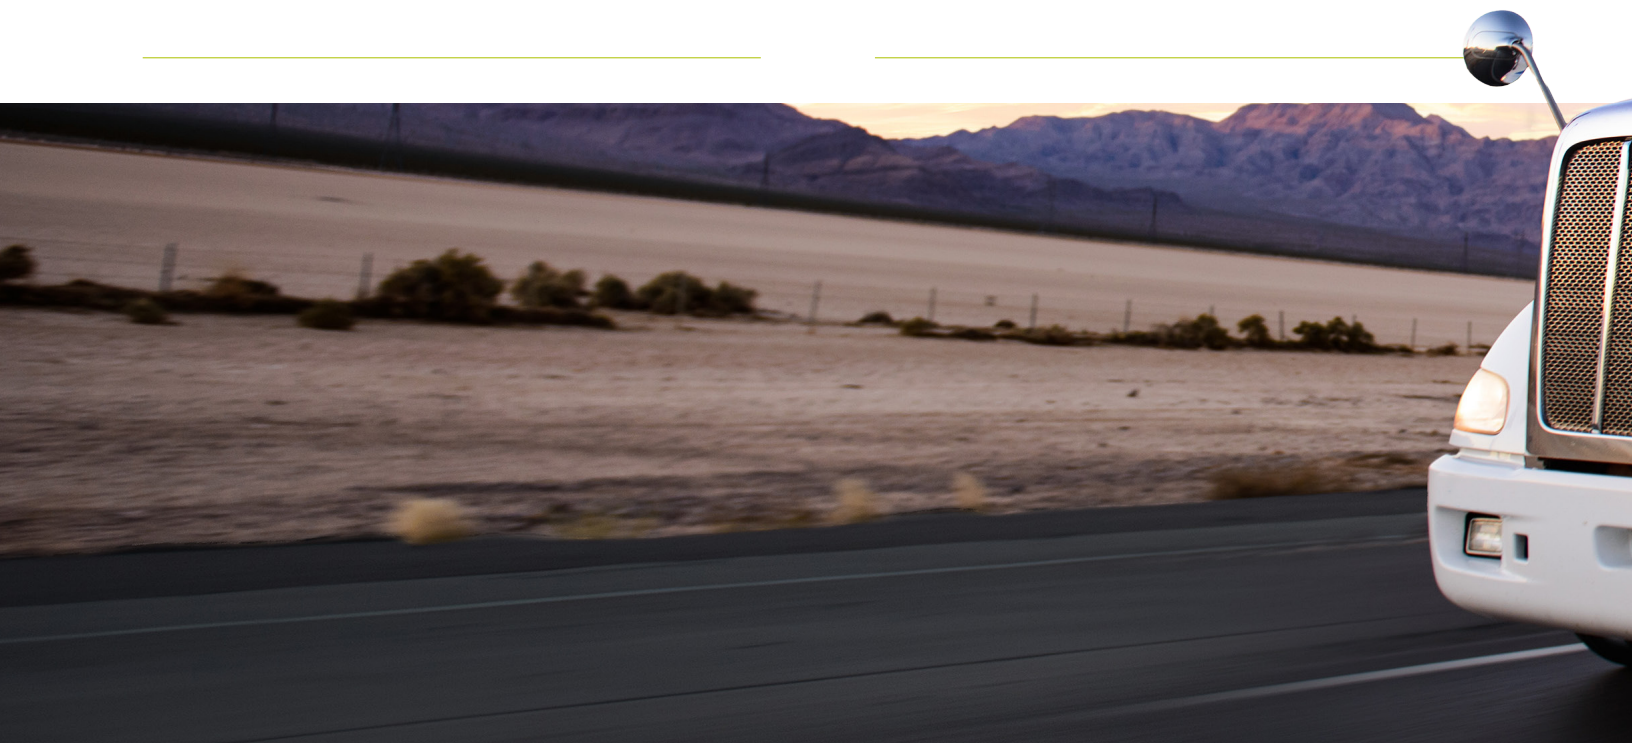

We verify active insurance coverage and documentation to help protect your shipment and reduce unnecessary risk.

Compliance Verification

Every carrier is vetted for operating authority, safety performance, insurance, and regulatory compliance before they're assigned to your freight.

Performance Monitoring

We continuously evaluate carrier performance based on reliability, communication, and on-time delivery to maintain a dependable carrier network.

TRANSPORTATION SERVICES
